

Teacher Evaluation Moodle Course

Thrun Law Firm, P.C. has teamed up with the Kent Intermediate School District to host a comprehensive web-based monthly seminar series on Teacher Evaluations using Kent ISD’s Moodle online course platform. A Thrun attorney will present a monthly webinar at the Kent ISD on a timely evaluation-related topic. Topics that will be addressed include the following:

- Individualized Development Plans
- The Evaluation Process
- Observations and Feedback
- Midyear Progress Reports
- Student Growth
- Layoffs and Tying 1248 and 1249 Together
- Wrapping Up Evaluations
- Probationary Teacher Nonrenewals and Tenured Teacher Discharges
- Evaluation Appeals
- Training Requirements
- The Evaluation Tool and Posting Requirements

Each month, the webinar will be uploaded to Kent ISD’s Moodle website where a subscribing school district or ISD will have unlimited access for its administrators to obtain information and training on the many statutorily-required components of a teacher performance evaluation system. The Moodle course affords central office and building level administrators 24/7 access from their offices, homes, or mobile devices to view a recorded version of each one-hour webinar and obtain up-to-date materials. Because the pre-recorded webinars are uploaded on a monthly basis, all information is current and relevant to the evaluation process.

Districts and ISDs that are interested in obtaining access to the Moodle website for their central office and building level administrators may purchase a subscription and obtain an access passcode. Instructions for logging onto the website and registering will be provided. SCECHs are available for this course.

 My District/ISD would like to subscribe to Thrun Law Firm’s Teacher Evaluation Moodle Course. I understand that this subscription will afford 24/7, password-protected access to an unlimited number of our central office and building-level administrators to view a series of pre-recorded Webinars and relevant materials on the many required components of a teacher performance evaluation system. By my signature, I understand that access to the Moodle website is by subscription only and that I am purchasing a subscription for use only in my District/ISD. I agree that I will not share my subscription with other districts or make copies of materials posted on the Moodle website for use other than use within my District/ISD unless specifically authorized in writing by Thrun Law Firm, P.C.
